👛 WORK EXPERIENCE

Front-End Intern

RealBiz Digital — *Jan 2024 – Present / Nairobi, Kenya (Remote)*

RealBiz Digital is a tech company founded in 2015, specializing in building fast and scalable modern websites.

- Debugged and fixed failing CI/CD pipelines.
- Designed and developed front-end features and user interfaces.
- Wrote unit, integration, and end-to-end tests to ensure quality and performance.
- Made technical and non-technical decisions to improve team productivity and project delivery.
- Mentored junior developers and supported task completion across the team.
- Resolved software issues related to design and application functionality.
- Consumed REST APIs from the backend.
- Set up new projects from scratch using React, React Testing Library, ESLint, Prettier, and Husky.

Front-End Intern / Team Lead

I-EnergyUp Innovation Lab — *Jul 2023 – Dec 2023 / Lagos, Nigeria (Remote)*

I-EnergyUp is a tech startup specializing in building complex web and mobile platforms to meet user needs.

- Set up React projects with testing and linting best practices.
- Reviewed team members' pull requests to ensure code quality and alignment with requirements.
- Mentored and supported other team members.
- Debugged and fixed CI/CD pipeline issues.
- Designed and implemented front-end features and responsive interfaces.
- Wrote unit and end-to-end tests.
- Integrated RESTful APIs.

Tools & Technologies: React, JavaScript, Tailwind CSS, Bootstrap, Figma, Vercel, Slack, GitHub Actions, React Testing Library.

Front-End Intern

Homechaw.ca — Feb 2023 – Jun 2023 / Vancouver, Canada (Remote)

- Assisted senior developers in enhancing web applications.
- Contributed to building responsive designs for optimal user experience.
- Conducted testing and debugging to ensure application stability.
- Gained hands-on experience working on real-world frontend projects and interfaces.

Tools & Technologies: React, JavaScript, Tailwind CSS, Bootstrap, Figma, Vercel, Slack, GitHub Actions, React Testing Library.

SIDE PROJECTS

Booking-Clone App

- Developed a Booking.com clone that fetch and displays hotel data from the web using web scraping.

Technologies: React, TypeScript, Tailwind CSS, HTML, ShadCN, Oxylabs (web scraping).

E-Commerce Website

- Built a fully functional e-commerce website featuring product listings, shopping cart, and basic checkout flow.

Technologies: HTML, CSS, JavaScript.
